Education   Pyramid High Institute (2012 - 2017). Engineering

OBJECTIVE

As a dedicated Frontend Developer, I am eager to secure a position where I can leverage my proficiency in HTML, CSS, and JavaScript to contribute to the creation of innovative and user-friendly web applications. A reliable and hardworking Junior Developer, I am committed to expanding my knowledge and skill set, with a keen interest in taking on increased responsibilities swiftly. My goal is to actively contribute to the achievement of project goals, ensuring the delivery of high-quality products that meet both user expectations and industry standards

TECHNICAL SKILLS

Programming Technologies Frameworks

- HTML
- CSS
- JavaScript
- React JS
- Redux
- Node JS

API:
- Developed and consumed RESTful APIs to enhance the functionality of web applications.

Concepts & Tools

- Object-Oriented Programming
- Implemented effective data structures to optimize application performance.
- Proficient in using Git & GitHub for version control and collaborative development.
- Experience with MongoDB for database management and data storage.

PROJECTS

Food Website - Cooking Tips, Healthy Eating Schedule, Cooking Recipes
- Developed a user-friendly website providing cooking tips, a healthy eating schedule, and a collection of cooking recipes.
- Technologies: HTML, CSS
